Comba showcased its latest technologies and solutions at the Mobile World Congress 2023

[Read more](#)

Comba showcased its latest technologies and solutions at the Mobile World Congress 2023 in Barcelona from 27 February to 2 March. This year the exhibition area focused on sustainability, and it attracted a steady stream of clients, partners, and general visitors eager to learn more about the forward-thinking solutions and high-end technologies designed to support operators in achieving improved mobile coverage performances with a reduced carbon footprint. As part of TelecomTV's Spotlight on 5G Program, Comba conducted 3 interviews to introduce the new Helifeed Green Antenna, highlight the company vision and plans for international business expansion, and discuss sharing infrastructure and business collaboration in the private networks with partner Phoenix Tower.
